

## Safety Flag Installation Instructions

### Parts

- One (1) fiberglass pole shaft with flag, pole A
- One (1) fiberglass pole shaft, pole B
- One (1) mounting bracket

### Required Tools for Installation

- Wrench (if bicycle uses a bolt-on axle)

### Preparation–Assembling the Flag

1. Insert the top of pole B into the bottom of pole A. Grip each pole near the metal casing and push together until the metal casing on pole B is completely inserted into sleeve on upper pole A.
2. A. **If the bicycle features a quick-release (QR) axle:**  
Loosen the QR axle by moving the QR lever from "closed" to "open." While holding the nut on the opposite side of the axle, rotate the lever a few times to create a gap between the QR lever and rear dropout of the frame.  
  
B. **If the bicycle features a bolt-on axle:**  
With a wrench, loosen the nuts to create a gap between the nut and the rear dropout of the frame.
3. Insert the mounting bracket into the gap between the rear dropout (bicycle frame) and nut, making sure that it straddles the axle.
4. Tighten the nut or quick-release enough that the mounting bracket is held but still rotatable. Align mounting bracket to desired position (either vertical or sloping slightly toward the rear of the bicycle).
5. Securely tighten nut or move the QR lever to the "closed" position, according to manufacturer's instructions or bicycle owner's manual.
6. Check alignment of wheel in frame and alignment of rim and brake pads (if any) to ensure proper and safe operation.
7. Insert assembled flag into mounting bracket.

### Limited 2 Year Warranty:

This QBP™ product is warranted against defects in materials and workmanship for two (2) years, from the original date of retail purchase by the consumer, subject to the limitations detailed below. This limited warranty is expressly limited to the repair or replacement of the original product, at the option of QBP™, and is the sole remedy of the warranty. This limited warranty applies only to the original purchaser of the QBP™ product and is not transferable.

In no event shall QBP™ be liable for any loss, inconvenience or damage, whether direct, incidental or consequential or otherwise resulting from breach of any express or implied warranty or condition, of merchantability, fitness for a particular purpose, or otherwise with respect to this product except as set forth herein.

This warranty does not cover the following:

- Damage due to improper assembly or follow-up maintenance or lack of skill, competence or experience of the user
- Products that have been modified, neglected, used in competition or for commercial purposes, misused or abused, involved in accidents or anything other than normal use
- Damage or deterioration to the surface finish, aesthetics or appearance of the product
- Normal wear and tear
- Labor required to remove and/or refit and re-adjust the product within the bicycle assembly

This warranty gives the consumer specific legal rights, and those rights and other rights may vary from state to state.
