QBP and Tri-Technical Systems Announce New Online Purchase Order Software

BLOOMINGTON, MN – Feb. 26, 2007 – QBP and Tri-Technical Systems, an Iowa-based software company, announced the release of a program that lets retailers submit purchase orders from their AIMSi point-of-sales (POS) system. The software module is available to QBP customers using Tri-Tech's Accounting & Inventory Management System Integration (AIMSi) application and related hardware.

“Our AIMSi business-to-business interface with QBP provides independent bike dealers with a very efficient time saving method to keep their inventory updated,” said David Cox, president of Tri-Technical Systems.

By ordering and invoicing electronically, dealers can virtually eliminate errors in orders and shipments. The new module tracks inventory, lists low-quantities, automatically prepares new purchase orders and allows multiple orders to be merged. Directly interacting with QBP's online system, it can also download new items and pricing and provide updates about discontinued products.

“Tri-Tech's software eliminates the need to manually place orders and can shave time from the purchasing process. Dealers can query QBP's stock status and submit purchase orders via the software directly into qbp.com,” said Todd Cravens, QBP director of sales and customer service. “Coupled with QBP's efficiency in filling and shipping orders, AIMSi reduces the total cost of procuring products. Its solid technology produces real value for our customers.”

About QBP

Based in Bloomington, MN, QBP is a leading distributor to the cycling industry. QBP offers domestic and international retailers a wide array of products and services including a 1,500-page catalog, a robust online ordering system, a renowned custom wheel service, a specialty bike-building program and more. QBP continues to be an active cycling advocate for the industry. For more information, please contact Jo Wright, director of marketing at 952-941-9391, or visit: www.QBP.com.

About Tri-Technical Systems Incorporated

Tri-Technical Systems, based in Dubuque, IA, has over 20 years experience providing software solutions for retailers interested in growing their business. AIMSi has helped dealers become more efficient and profitable by providing a complete business package that goes beyond typical off-the-shelf solutions. AIMSi is the necessary tool to expand your customer database as well as "harvest" your existing customers to facilitate recurring revenue.
